VIDEO MEASURING SYSTEM RS 15

The new retrofittable video measuring system for high-precision measurement results

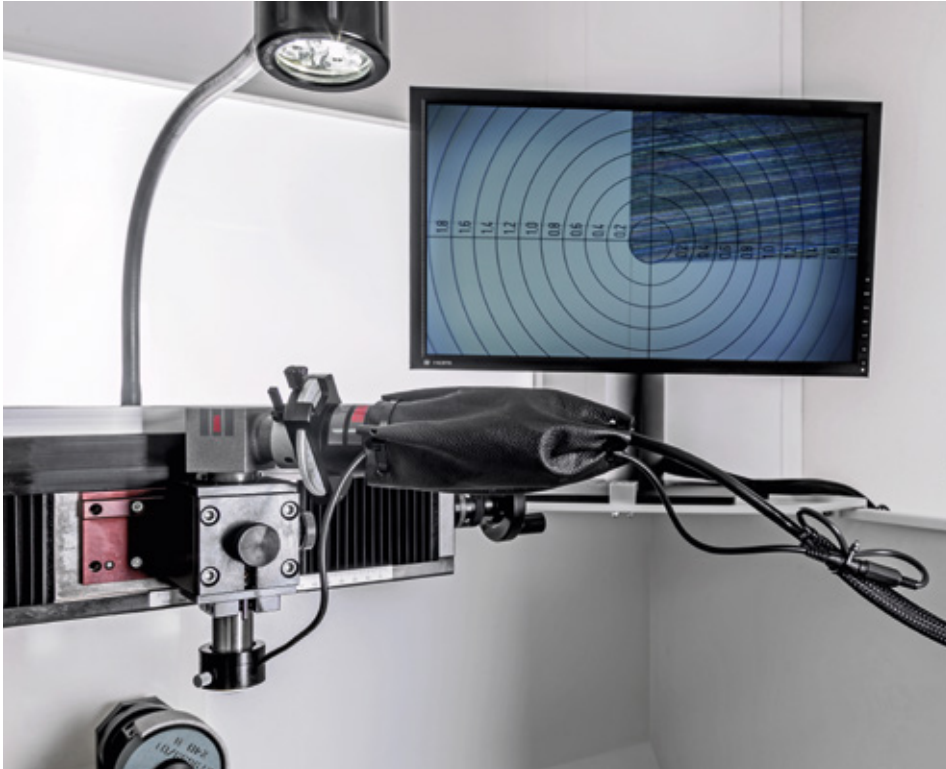

NEW

Benefit

The retrofittable video measurement system replaces the conventional projector and ensures fast and accurate measurement results separately or in parallel to the grinding process. In addition it provides maximum ease of operation and high efficiency.

The new retrofittable video measuring system for the RS 15

Optical viewing device

Benefits:

- Fast and precise measurement results
- Replaces the conventional projector
- Can be retrofitted on existing machines
- Precise measurements possible even during the grinding process
- Maximum working comfort thanks to high resolution screen directly in the line of sight
- High efficiency
