

WALTER INFO 18/2018

AUTOMATIC, ELECTRICAL MEASUREMENT OF THE MACHINE REFERENCES

Take advantage of the automatic, electrical measurement of the machine references for WALTER grinding and erosion machines.

NEW

Your advantages

- Highest accuracy of the measuring results by precise positioning of the axes via electrical contact
- Significant time savings of automatic operation compared to the manual measuring method
- Valuable working hours of employees can be used for other tasks
- Eliminates human errors
- Can be retrofitted to existing machines with FANUC control
- Short amortization time of your investment

Technical details

- Setting disc with electrical isolator
- Connection via interface to the machine
