

# GRINDING WHEELS 101

HOW TO CHOOSE THE VERY BEST GRINDING WHEEL

We teamed up with the experts at **Continental Diamond Tool** for a new series that will tell you everything you need to know about grinding wheels. Up first: everything you should consider to select the ideal wheel.

## CUSTOMER STORIES

REAL-LIFE UNSTOPPABLE GRIT

Throughout June, we're telling the stories of four UNITED GRINDING North America customers who have used their skill and tenacity to become world-class operations.

The first two spotlights are below, and watch for the next two in July's edition of Motion Monthly.

Meet Abrasive West, an Illinois-based BLOHM shop that prioritizes its part-making and its people.

## CUSTOMER SPOTLIGHT

HOW AIGUISATEK GIVES CUSTOMERS 300% MORE TOOL LIFE

Years ago, this Montreal-area shop had a decision to make. They went with WALTER, and today, Aiguisatek gives Canada's woodworkers tool grinding and eroding service that would be difficult to find anywhere else.

**TITANS**  
of CNC

## The WALTER Wow Factor

What to do if you have more tools than holders in your machine? The TITANS team used a custom tri-cut tool in the WALTER HELITRONIC VISION 400 L to great effect.
